

# What's in your Drawers?

## Museum Show – Activity sheet

Find *The Museum of Drawers* by Herbert Distel, it's a museum in miniature. Each drawer contains 25 mini artworks in 25 mini galleries. The artist wrote to all the artists he knew in the 1960's and 1970's and asked them to donate or make a work for the museum and after 7 years he had collected 500!!

Choose one of the Museum drawers that are on display (you can see them in the glass cases) and draw 2 of the objects in the drawers below. On the lines underneath describe what you think the object is and what you think it is made of.
